

How to file a Death Record not using a funeral home

Families that choose not to work through a funeral home will designate a family representative, often referred to as the Informant, to perform the role of the funeral director and to work with the Office of Vital Statistics to facilitate the entry of the death record into the Electronic Death Registration System (EDRS). For more information about getting a death record filed with the State of Kansas, please call (785) 296-1430 or email kdhe.vitalrecords@ks.gov .
