For easy reference, this alphabetized product list contains the following information:

**Product Description**

Product Name {Manufacturer}  
Product Size and Packaging

**Usage**

Recommended Uses  
WIC Food Packages available for bolded categories

**Features**

Special features of formula.  
Caloric Density when prepared as directed. Calories (kcal) per fluid ounce (fl oz) unless specified differently.  
Iron Content per liter when prepared as directed. Milligrams (mg) per liter (L) unless specified differently.  
Yield in fluid ounces of one container of powder, when mixed to standard dilution.

**Nutrient Source**

Listed in order by weight  
Protein Source (% kcal from protein)  
Carbohydrate Source (% kcal from carbohydrate)  
Fat Source (% kcal from fat)

**WIC Issuance**

**Green highlights:** Food Packages not set up in KWIC. Contact State WIC Nutrition Consultant if product is needed.  
**Yellow highlights:** This product is not issued to the client's account. It is shipped to WIC clinics as needed. Contact State WIC Nutrition Consultant to order this product.  
**Red highlights:** Not WIC approved. Also includes justification as to why the product is not approved.

This list is not a comprehensive list of all products available. It contains information on commonly requested products.

The Kansas WIC Program will issue formulas for metabolic conditions; however, most are not listed here due to the extensiveness of products available. Check the company websites above and/or contact your State WIC nutritionist for information on additional metabolic formulas or other products not included in this reference.

<b>EleCare Jr {Abbott Nutrition}</b> 14.1 oz containers powder 6 containers/case	<b>Children</b> who need an amino acid-based medical food or who cannot tolerate intact protein. Indicated for the dietary management of protein maldigestion, malabsorption, severe food allergies, short-bowel syndrome, eosinophilic GI disorders, GI-tract impairment, or other conditions in which an amino acid-based diet is required.	100% free L-amino acids. 1/3 of fat as medium-chain triglycerides. Milk- protein free. Soy protein free. Lactose, fructose and galactose free. Gluten free. <b>Caloric Density:</b> 30 <b>Iron Content:</b> 14.8  <b>Yield:</b> One container yields 62 fl oz.	<b>Protein (15%)</b> - L-amino acids <b>Carbohydrate (43%)</b> - corn syrup solids <b>Fat (42%)</b> - high-oleic safflower oil, medium-chain triglycerides, soy oil	Approved with prescription  Time frame as requested - up to end of certification
<b>EnfaCare or Enfacare NeuroPro {MJ}</b> 12.8 oz containers powder 6 containers/case 8 oz containers RTF 6 packs, 4 packs per case	Low-birth-weight, premature <b>infants</b> and <b>children</b> who require increased levels of protein, calories, calcium, and other key nutrients to support rapid growth.	Contains added docosahexaenoic acid (DHA) and arachidonic acid (ARA). <b>Caloric Density:</b> 22 <b>Iron Content:</b> 13.5  <b>Yield:</b> One container yields 82 fl oz.	<b>Protein (10%)</b> - nonfat milk, whey protein concentrate <b>Carbohydrate (44%)</b> - <u>Powder:</u> corn syrup solids, lactose <u>RTF:</u> maltodextrin, lactose <b>Fat (46%)</b> - high-oleic vegetable oil (sunflower and/or safflower), soy oil, medium-chain triglycerides, coconut oil	Approved with prescription  Time frame as requested - up to end of certification

**Subject: Formula Manufacturers and Products**

Product Description	Usage	Features	Nutrient Source	Kansas WIC Issuance
<b>Enfamil A.R. {MJ}</b>  12.9 oz containers powder 6 containers/case	Non-contract milk-based infant formula.  For infants who spit up frequently, reflux or in need of a thickened formula.	Contains 20:80 whey:casein ratio and unmodified, pregelatinized, high amylopectin rice starch. <b>Caloric Density:</b> 20 <b>Iron Content:</b> 12.1  <b>Yield:</b> One powder container yields 91 fl oz.	<b>Protein</b> (12%) - nonfat milk, <b>Carbohydrate</b> (44%) – rice starch, lactose, galactooligosaccharides, polydextrose <b>Fat</b> (44%) - vegetable oil (palm olein, coconut, soy and high oleic sunflower oils)	Enfamil A.R. normally is considered a standard non-contract formula and not allowed. Due to some differences in functionality compared to Similac for Spit Up, Enfamil AR is allowed in limited cases. A healthy, growing infant with simply “persistent vomiting” as the diagnosis should <b>not</b> be approved for Enfamil AR. See policy <a href="#">FCI 02.01.05</a> .
<b>Enfamil Human Milk Fortifier {MJ}</b>  0.71 g packet powder 200 packets/case	To be added to expressed human milk for feeding premature and low-birth weight <b>infants</b> . Enfamil Human Milk Fortifier was specifically designed to be used as a supplement to be added to mother's milk collected after 2 weeks postpartum.	Gluten-Free. <b>Caloric Density:</b> 3.5 kcal/packet <b>Iron Content:</b> 0.36 mg/packet	<b>Protein</b> (32%) - milk protein isolate, whey protein isolate hydrolysate <b>Carbohydrate</b> (5%) - corn syrup solids <b>Fat</b> (63%) - medium-chain triglycerides oil, soybean oil	Approved with prescription  Time frame as requested - up to end of certification  <i>This product is not issued to the client's account. It is shipped to WIC clinics as needed. Contact State WIC Nutrition Consultant to order this product.</i>
<b>Enfamil Premature with Iron {MJ}</b>  2 oz bottles RTF, 6-packs 48 bottles/case	Premature or low-birth-weight <b>infants</b> who require increased levels of protein, calories, calcium, and other key nutrients to support rapid growth.  <b>Precaution:</b> When more than 12 oz/day of 24 kcal/fl oz is used per day, intake of some nutrients (e.g. fat soluble vitamins) may be excessive. In such instances, it should be used only at the direction and under the supervision of a doctor.	Contains added docosahexaenoic acid (DHA) and arachidonic acid (ARA). <b>Caloric Density:</b> 20/24 <b>Iron Content:</b> 12.2	<b>Protein</b> (12%) - nonfat milk, whey protein concentrate <b>Carbohydrate</b> (44%) - corn syrup solids, lactose <b>Fat</b> (44%) - medium-chain triglycerides oil, soy oil, high-oleic vegetable oil (sunflower and/or safflower), m alpina oil, c. cohnii oil	Approved with prescription  Time frame as requested - up to end of certification

**Subject: Formula Manufacturers and Products**

Product Description	Usage	Features	Nutrient Source	Kansas WIC Issuance
<b>Enfamil ProSobee {MJ}</b> 12.9 oz containers powder 6 containers/case 13 oz containers concentrate 24 containers/case 8 oz bottles RTF 6 pack 48 bottles/case	Non-contract soy infant formula.			<b>Not WIC approved.</b> Non-contract formulas that are approximately the same product as rebate contract formulas are not approved for cost containment purposes.
<b>Enfamil - Other Milk Based Products {MJ}</b> Premium, Newborn/Infant, for Supplementing, Gentlease, Reguline,	Non-contract milk-based infant formula.			<b>Not WIC approved.</b> Non-contract formulas that are approximately the same product as rebate contract formulas are not approved for cost containment purposes.
<b>Enfaport {MJ}</b> 6 oz containers RTF 24 bottles/case (calculate amount issued according to caloric needs)	<b>Infants</b> with Chylolthorax or LCHAD deficiency. Enfaport balances high levels of MCT oil for easier absorption, along with DHA and ARA, important fatty acids for infant development. <b>Children</b> with specific dietary needs.	84% MCT oil. Contains added docosahexaenoic acid (DHA) and arachidonic acid (ARA).  <b>Caloric Density:</b> 30 <b>Iron Content:</b> 18.2	<b>Protein</b> (14%) – calcium caseinate, sodium caseinate; 60:40 whey:casein blend <b>Carbohydrate</b> (41%) - corn syrup solids <u>RTF:</u> maltodextrin, lactose <b>Fat</b> (45%) - medium-chain triglycerides, soy oil	Approved with prescription – direct ship formula.  Time frame as requested - up to end of certification
<b>Ensure {Abbott Nutrition}</b> 8 oz containers RTF 24 containers/case	<b>Adults</b> and <b>children</b> over 12 years old who are at nutritional risk, who have a weakened immune system, who are experiencing involuntary weight loss, who are recovering from illness or surgery, or who are on modified or low-residue diets.	Low-residue. Low in saturated fat. Good source of fiber. <b>Caloric Density:</b> 31.3 <b>Iron Content:</b> 20	<b>Protein</b> (14.4%) – whey protein isolate <b>Carbohydrate</b> (64%) - sucrose, corn maltodextrin, short chain fructooligosaccharies <b>Fat</b> (21.5%) – soy oil, canola oil, corn oil	Approved with prescription  Time frame as requested - up to end of certification
