

381 Oral Health Conditions

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
381	Oral Health Conditions			X	1	1	5	1	3	11/13

Kansas Risk Factor Definition

Diagnosis of oral health conditions a physician, dentist, or someone working under a physician’s orders as self-reported by client; or as reported or documented by a physician or dentist, or someone working under physician’s orders. Includes, but is not limited to:

- Dental caries/cavities/tooth decay;
- Periodontal disease (either stage – gingivitis or periodontitis); and
- Tooth loss, ineffectively replaced teeth or oral infections which impair the ability to ingest food in adequate quantity or quality.

USDA Justification

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
