

321b Fetal or Neonatal Loss during Last Pregnancy

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
321b	Fetal or Neonatal Loss during Last Pregnancy		X	X		1	5			04/01

Kansas Risk Factor Definition

A fetal or neonatal death during the most recent pregnancy. Must be diagnosed by a physician as self-reported by client; or as reported or documented by a physician, or someone working under physician's orders.

- Fetal death is the spontaneous termination of a gestation at ≥ 20 weeks.
- Neonatal death is the death of an infant within 0-28 days of life.

KWIC will auto-assign if **Birth Outcome** on Health Interview or Record End of Pregnancy for any **Infant** this pregnancy is “Born Dead”.

[USDA Justification](#)

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
