

361 Depression

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
361	Depression			X	1	1	6			11/13

Kansas Risk Factor Definition

Presence of clinical depression, including postpartum depression as diagnosed by a physician or clinical psychologist as self-reported by client; or as reported or documented by a physician or clinical psychologist, or someone working under physician’s orders.

USDA Justification

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
