

904 Environmental Tobacco Smoke Exposure

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
904	Environmental Tobacco Smoke Exposure		X*		1	1	6	1	3	12/20

Kansas Risk Factor Definition

Exposure to smoke from tobacco products (including exposure to aerosol from electronic nicotine delivery systems) inside enclosed areas, like the home, place of child care, restaurants, bars, casinos, cars and other vehicles.

[USDA Justification](#)

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
