

362 Disabilities Interfering w/ Ability to Eat

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
362	Disabilities Interfering w/ Ability to Eat	X I, C only			1	1	4	1	3	4/01

Kansas Risk Factor Definition

Developmental, sensory or motor disabilities that restrict the ability to consume chew or swallow food or require tube feeding to meet nutritional needs. Disabilities include but are not limited to:

- minimal brain function;
- feeding problems due to a developmental disability such as pervasive development disorder (PDD) which includes autism;
- birth injury;
- head trauma;
- brain damage; or
- other disabilities.

[USDA Justification](#)

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
