

## 114 Overweight

### Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
114	Overweight		X						3 C 2-5 yrs	05/11

### Kansas Risk Factor Definition

2 to 5 years old with a standing height and a BMI/age greater than or equal to ( $\geq$ ) the 85<sup>th</sup> percentile and less than ( $<$ ) the 95<sup>th</sup> percentile BMI/age as plotted on the 2000 CDC age/gender specific growth charts.

### [USDA Justification](#)

**Note:** USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
