

903 Foster Care

Kansas Risk Factor Summary

Risk Factor Code	Kansas Risk Factor Title	High Risk	Auto-Assigned	Based on MD Diagnosis	Category and Priority					USDA Revised Date
					PG	BF	PP	I	C	
903	Foster Care		X*		7	7	7	7	7	04/01

Kansas Risk Factor Definition

A child who has entered the foster care system during the previous six months or moving from one foster care home to another foster care home during the previous six months.

[USDA Justification](#)

Note: USDA Justification is provided because it explains nicely why the risk is important. However, you must use the Kansas risk factor names and definitions which may differ slightly from the USDA document.
