

Reserve funds immediately available for use by the Issuer in the amount of \$190,000.

#### Delivery

The Issuer will pay for preparation of the Bonds and will deliver the same properly prepared, executed and registered without cost to the successful bidder on or about August 10, 2017, to DTC for the account of the successful bidder.

#### Assessed Valuation and Indebtedness

The equalized assessed tangible valuation for computation of bonded debt limitations for the year 2016 is \$41,926,770. The total general obligation indebtedness of the Issuer as of the dated date, including the Bonds being sold, is \$10,915,000.

#### Approval of Bonds

The Bonds will be sold subject to the legal opinion of Gilmore & Bell, P.C., Wichita, Kansas, bond counsel to the Issuer, whose approving legal opinion as to the validity of the Bonds will be furnished and paid for by the Issuer, printed on the Bonds and delivered to the successful bidder as and when the Bonds are delivered.

#### Additional Information

Additional information regarding the Bonds may be obtained from the undersigned or from the Financial Advisor at the addresses set forth below:

### Department of Health and Environment

#### Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Water, will conduct

a public hearing at 10:00 a.m. Tuesday, October 3, 2017, in the Azure Conference Room, Curtis State Office Building, 1000 SW Jackson, Topeka, Kansas, to consider the adoption of proposed amended regulations K.A.R. 28-16-28b, 28-16-28d, 28-16-28e and 28-16-28f and the adoption of proposed new regulation K.A.R. 28-16-28h regarding Kansas surface water quality standards.

A summary of the proposed regulations and the estimated economic impact follows:

#### Summary of Regulations

**K.A.R. 28-16-28b. Definitions.** Adds definitions for the terms discharger, highest attainable condition, interim criterion, interim designated use, multiple-discharger variance and MDV, pollutant minimization plan and PMP, and reconfiguration activities. Modifies the definitions of the terms background concentration and numeric criteria value, which eliminates table 1e from the "Kansas Surface Water Quality Standards: Tables of Numeric Criteria." Replaces the definition for the term variance. Revises the terms criterion and critical low flow and the general language of the regulation to include reference to proposed new regulation K.A.R. 28-16-28h. Revises the term use attainability analysis, which eliminates a referenced regulation and reflects the current K.S.A. 82a-2001. Adopts the June 15, 2016, "Kansas Implementation Procedures: Surface Water Quality Standards."

**K.A.R. 28-16-28d. Surface water classification and use designation.** Revises and updates the adoption by reference of 40 C.F.R. 131.10(g).

**K.A.R. 28-16-28e. Surface water quality criteria.** Deletes reference to Table 1e from the regulation because the table has been removed from the "Kansas Surface Water Quality Standards: Tables of Numeric Criteria." Adopts the March 2, 2017, "Kansas Surface Water Quality Standards: Tables of Numeric Criteria" that updates the tables as follows: Revises Table 1a to add a new reference for the ammonia aquatic life criteria. Moves the selenium, total criteria and selenium (V) criteria from the metals section of Table 1a to the Other Inorganic Substances section. A new Table 1c presents new total ammonia acute criterion. This table replaces Table 1c pH- dependent acute aquatic life criteria for total ammonia. A new Table 1d presents new total ammonia chronic criterion. This table replaces Table 1d pH- and temperature-dependent chronic aquatic life criteria for total ammonia early life stages of fish absent. Table 1e has been stricken due to the new proposed ammonia criteria. The title of Table 1f has been revised adding the word "ammonia" preceding "chronic."

**K.A.R. 28-16-28f. Administration of surface water quality standards.** Updates the regulatory process for variances allowing for individual and multiple discharger variances.

**K.A.R. 28-16-28h. Surface water variance register.** Adopts the "Kansas Surface Water Quality Standards Variance Register" to document surface water quality standard variances that have been approved by the Secretary and made available to the public.

#### Economic Impact

Cost to the agency: The proposed regulations will not result in increased costs to the agency.

Cost to the public and regulated community:

Ammonia Acute and Chronic Aquatic Life Criteria: From KDHE's analyses, the majority of mechanical wastewater treatment plants (WWTP) can meet, without incurring additional costs, the new acute and chronic ammonia limits recommended by the Environmental Protection Agency (EPA) in the Aquatic Life Ambient Water Quality Criteria for Ammonia-Freshwater 2013. Sampling and monitoring is required of mechanical WWTP. Additional costs for sample collection and analysis for ammonia may be incurred if the sampling frequency is increased. Municipalities with WWTP lagoon systems may incur a significant financial burden if they are required to implement technological and/or mechanical upgrades to meet the new ammonia criteria limits. If sampling and monitoring is required by WWTP lagoon systems, additional costs may be incurred.

K.A.R. 28-16-28f(d) Variances: If the water quality standards (WQS) variance regulations are not adopted, significant costs could be placed upon the regulated community because they would not have the flexibility to request a WQS variance if needed. For example, if the ammonia criteria is approved without the accompanying variance provisions, the financial burden of implementation would significantly impact municipalities with wastewater lagoons that cannot meet the new proposed ammonia criteria. The state will be able to implement the proposed ammonia criteria with minimal financial impact on the regulated community with the concurrent adoption of the proposed WQS variance regulations and the "Multiple-discharger Wastewater Lagoon Ammonia Variance" as written in the "Kansas Surface Water Quality Standards Variance Register." There may be costs incurred by larger waste water treatment lagoon systems that do not meet the proposed ammonia criteria and are not eligible to receive a variance.

For all other proposed regulatory changes there are no known additional costs to the regulated communities or the public.

Cost to other governmental agencies or units: There are no known additional costs to other governmental agencies or units.

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing to Julia Young, Kansas Department of Health and Environment, Bureau of Water, 1000 SW Jackson, Suite 420, Topeka, KS 66612-1367, by email to [Julia.Young@ks.gov](mailto:Julia.Young@ks.gov), or by fax to 785-296-0086. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulations as well as an opportunity to submit their written comments. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Complete copies of the proposed regulations and the corresponding regulatory impact statement may be obtained from the Bureau of Water website at <http://www.kdheks.gov/water/index.html> or by contacting Julia

Young at the address above, 785-296-5508 or fax 785-296-0086. Questions pertaining to the proposed regulations should be directed to Julia Young at the contact information above.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the regulatory impact statement in an accessible format. Requests for accommodation to participate in the hearing should be made at least five working days in advance of the hearing by contacting Julia Young.

Susan Mosier, MD, MBA, FACS  
Secretary and State Health Officer

## Department of Labor

### Notice of Hearing on Proposed Administrative Regulations (Revised)

**(Editor's Note: The public hearing on Kansas Department of Labor proposed administrative regulations scheduled for August 15, 2017, notice of which was published in the June 15, 2017 Kansas Register, has been cancelled. A new hearing has been scheduled for September 7, 2017, at 9:00 a.m., as published in the following notice.)**

A public hearing will be conducted by the Kansas Department of Labor at 9:00 a.m., September 7, 2017, at the Kansas Department of Labor, 401 SW Topeka Blvd., Topeka, Kansas, First Floor Hearing Room 3, to consider the adoption of amusement ride regulations.

The public hearing originally scheduled for August 15, 2017, notice of which was published in the June 15, 2017 issue of the Kansas Register, has been cancelled.

The regulations subject to this hearing notice are K.A.R. 49-55-1, 49-55-2, 49-55-3, 49-55-4, 49-55-5, 49-55-6, 49-55-8, 49-55-11, 49-55-12, and 49-55-13.

This 60-day notice constitutes a public comment period for the purposes of receiving written public comment on the proposed regulations. Any comments on the proposed regulations and requests for copies of the proposed regulations and economic impact statements should be sent to the Kansas Department of Labor, Bradley R. Burke, Deputy Secretary and Chief Attorney, 401 SW Topeka Blvd., Topeka, KS 66603, at 785-296-5000, Option 0, ext. 2569, or to [brad.burke@dol.ks.gov](mailto:brad.burke@dol.ks.gov).

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least ten working days in advance of the hearing by contacting the Kansas Department of Labor, Bradley R. Burke, Deputy Secretary and Chief Attorney, 401 SW Topeka Blvd., Topeka, KS 66603, at 785-296-5000, Option 0, ext. 2569, or to [brad.burke@dol.ks.gov](mailto:brad.burke@dol.ks.gov).

The proposed regulations apply to amusement rides within the state. Owners of amusement rides will be required to obtain annual registration, maintain amusement ride records, and obtain ride permits for each amusement ride. Owners and operators of covered
