Dear Mr. Anderson:

We have completed the review of the January 23, 2018 version of the Quality Management Plan, Part I, Revision 3 for the Division of Environment of the Kansas Department of Health and Environment. The document complies with *EPA Requirements for Quality Management Plans* (EPA QA/R-2, March 2001) and is approved. The original approval page and copy of the QMP are enclosed.

The anniversary date for the QMP is March 2023 and the QMP must be updated appropriately and submitted on or before the anniversary date to the regional quality assurance manager for review and approval. If there are significant changes to your quality system before the anniversary date, a revised QMP must be submitted to EPA for review and approval at the time the changes occur. Any minor revisions made to the QMP should be submitted to the regional quality assurance manager as a report when those changes occur.

If you have any questions, please call Diane Harris, Regional Quality Assurance Manager at (913)551-7258.

Sincerely,

James B. Gulliford
