

**State of Kansas
Kansas Drug Utilization Review
Conflict of Interest Disclosure**

The Kansas Drug Utilization Review Board members and persons testifying or presenting to the DUR Board are asked to disclose any financial or other affiliation with organizations that may have a direct or indirect interest in the business in front of the Board.

A financial interest may include, but is not limited to, being a shareholder in the organization (direct purchase); being on retainer with the organization; or having research or honoraria paid by the organization.

An affiliation may include holding a position on an advisory committee or some other role or benefit to a supporting organization.

The existence of such relationships does not necessarily constitute a conflict of interest and will not preclude an individual from participating on, or addressing the DUR Board. This policy is intended to openly identify any potential conflicts so that DUR Board members and the public are able to form their own judgements.

Please check the box of the statement that best applies.
