

Core Measures ¹		Menu Set ²	
¹ These objectives are to be achieved by all eligible professionals in order to qualify for incentive payments.		² Eligible professionals may select any five choices from the menu set with one limitation related to the two population and public health measures denoted with a ³ . ³ Unless an EP has an exception for all of these objectives and measures they must complete at least one as part of their demonstration of the menu set in order to be a meaningful EHR user.	
Objective	Measure	Objective	Measure
1. Use computerized order entry for medication orders	1. > 30% of patients with at least one medication in their medication list have at least one medication ordered through CPOE	1. Implement drug-formulary checks	1. Drug formulary check system is implemented & has access to at least one internal or external drug formulary for the entire reporting period
2. Implement drug-drug and drug allergy checks	2. Functionality is enabled for these checks for the entire reporting period	2. Incorporate clinical lab-test results into certified EHR as structured data	2. > 40% of clinical laboratory test results whose results are in +/- or numerical format are incorporated into EHRs as structured data
3. Generate and transmit permissible prescriptions electronically	3. > 40% are transmitted electronically using certified EHR technology	3. Generate lists of patients by specific conditions to use for quality improvement, reduction of disparities, research, & outreach	3. Generate at least one listing of patients with a specific condition
4. Record patient demographics-gender, race, ethnicity, date of birth, preferred language	4. > 50% of patients have at least one entry recorded as structured data	4. Send reminders to patients per patient preference for preventive/follow-up care	4. > 20% of patients ≥ 65 years old or ≤ 5 years old are sent appropriate reminders
5. Maintain an up-to-date problem list of current and active diagnoses	5. > 80% of patients have at least one entry recorded as structured data	5. Provide patients with timely electronic access to their health information (including lab results, problem list, medication lists, allergies)	5. > 10% of patients are provided electronic access to information within 4 days of its being updated in the EHR
6. Maintain active medication list	6. > 80% of patients have at least one entry recorded as structured data	6. Use certified EHR to identify patient-specific education resources & provide to patient if appropriate	6. > 10% of pts are provided patient-specific education resources
7. Maintain active medication allergy list	7. > 80% of patients have at least one entry recorded as structured data	7. Perform medication reconciliation as relevant	7. Medication reconciliation is performed for > 50% of transitions in care
8. Record & chart changes in vital signs (height, weight, BP, BMI, and growth charts for <20 yrs old)	8. > 50% of patients ≥ 2 years of age have height, weight, & BP recorded as structured data	8. Provide summary care record for transitions in care or referrals	8. Summary of care record is provided for > 50% of patient transitions or referrals
9. Record smoking status for patients ≥ 13 years	9. > 50% of patients ≥ 13 years of age have smoking status recorded as structured data	9. Capability to submit electronic data to immunization registries & actual submission ³	9. Perform at least one test of data submission and follow-up submission
10. Implement one clinical decision support rule & ability to track compliance with rule	10. One clinical decision support rule implemented	10. Capability to provide electronic syndromic surveillance data to public health agencies & actual submission ³	10. Perform at least one test of data submission and follow-up submission
11. Report Clinical Quality Measures to CMS or the States	11. 2011: provide aggregate numerator & denominator through attestation; 2012: electronically submit measures	Clinical Quality Measures	
12. Provide patients with an electronic copy of their health information upon request (diagnostic test results, problem list, medication lists, medication allergies)	12. > 50% of requesting patients receive electronic copy within 3 business days	Eligible professionals must report on 6 total measures	
13. Provide clinical summaries to patients for each office visit	13. Clinical summaries are provided to patients for > than 50% of all office visits within 3 business days	~ 3 required core measures (substituting alternate core measures when necessary)	
14. Exchange key clinical information electronically among providers & patients authorized entities	14. Perform at least one test of EHR's capacity to electronically exchange information key clinical information	~ 3 additional measures	
15. Protect electronic health information	15. Conduct or review a security risk analysis; implement security updates as necessary; correct identified security deficiencies	 Kansas Foundation for Medical Care, Inc. 2947 SW Wanamaker Dr., Topeka, KS 66614 800.432.0770 recsupport@kfmc.org www.kfmc.org
