Bureau of Water

Watershed Planning, Monitoring, and Assessment Section

This list is organized alphabetically by:

Major River Basin

- Subbasin (HUC 8)
 - Stream/Lake
 - Category
 - Impairment

Explanation of Column Headers

Cat.: Reporting category for the listed water:

- **Cat. 2:** Water was previously listed as impaired but now has water quality sufficient to support its designated uses.

Stream/Lake: Registered stream where sampling station is located or a Registered Lake.

Impaired Use: The designated use under assessment: Aquatic Life, Recreation, Water Supply, or Food Procurement.

Impairment: The pollutant impairing the designated use of the stream.

Station: Unique identifier indicating KDHE stream chemistry (SC) monitoring station or KDHE lake monitoring (LM) station where data for assessment is collected.

Counties: Counties where the stream watershed or lake is located.

Body Type:

Watershed: Impairment applies to the stream watershed monitored at the SC station indicated.

Lake: Impairment applies to a lake waterbody as monitored at the LM station indicated.

Facility: Impairment has been linked to a NPDES discharging facility.

Comment: Indicates the year the waterbody/pollutant combination moved to Category 2 status.
