The Kansas Department of Health and Environment (KDHE) is announcing its intent to renew a Resource Conservation and Recovery Act hazardous waste permit to Univar Solutions USA Inc., the owner and operator of the facility located at 5420 Speaker Road, Kansas City, Kansas. The permit allows the facility to receive and store hazardous waste in approved containers from on-site and off-site generators.

The Draft Permit, Permit Application, Fact Sheet, and Index to the Administrative Record, that includes all data submitted by the applicant, are available for public review from May 5 through June 19, 2022 during normal business hours at the KDHE office in Topeka, the Kansas City Kansas Public Library West Wyandotte Branch at 1737 N. 82nd St., Kansas City, Kansas, and on the KDHE website at https://www.kdhe.ks.gov/621/Hazardous-Waste-Public-Notices.

A public hearing has not been scheduled; however, if written requests are received which indicate a significant degree of public interest in the draft permit, a public hearing will be scheduled. Anyone wishing to comment on the draft permit must submit written comments postmarked no later than June 20, 2022 to Kerri Kennedy at the KDHE office contact at 1000 SW Jackson, Suite 320, Topeka, Kansas.

More information on this permit renewal action may also be obtained by calling the KDHE contact, Kerri Kennedy, at (785) 296-6898.

In accordance with 40 CFR 124.10 and 40 CFR 270.42, this notice has been sent to all persons on the Facility mailing list, which is maintained by KDHE - Bureau of Waste Management. Any recipient of this notice that wishes to be removed from the Facility mailing list or would like to have future notices sent to a different location should notify KDHE, in writing, to the address provided above. KDHE attempts to maintain current addresses; however, if this notice is returned to KDHE as undeliverable, the intended recipient and address will be removed from the mailing list after a reasonable attempt to find a correct address for the intended recipient.
