

Kansas Trauma Registry 2023 Patient Inclusion Criteria

ALWAYS INCLUDE:

- Any trauma consult
- Any level of trauma team activation

Otherwise, a **trauma patient** is defined as a patient sustaining a traumatic injury within 14 days of initial hospital encounter and meeting at least one of the following diagnosis criteria and at least one of the following status criteria¹:

Diagnosis Criteria:

- At least one of the following ICD-10-CM (diagnosis) codes:
 - **S00—S99 with 7th character modifiers of A, B, or C ONLY** (Injuries to specific body parts—initial encounter)
 - **T07** (*Unspecified multiple injuries*)
 - **T14** (*Injury of unspecified body region*)
 - **T20—T28 with 7th character modifier of A ONLY** (*Burns by specific body parts—initial encounter*)
 - **T30—T32** (*Burn by TBSA percentages*)
 - **T79.A1—T79.A9 with 7th character modifier of A ONLY** (*Traumatic compartment syndrome—initial encounter*)
- **EXCLUDING the following isolated injuries:**
 - **S00** (*Superficial injuries of the head*)
 - **S10** (*Superficial injuries of the neck*)
 - **S20** (*Superficial injuries of the thorax*)
 - **S30** (*Superficial injuries of the abdomen, pelvis, lower back, and/or external genitals*)
 - **S40** (*Superficial injuries of shoulder and/or upper arm*)
 - **S50** (*Superficial injuries of elbow and/or forearm*)
 - **S60** (*Superficial injuries of wrist, hands, and/or fingers*)
 - **S70** (*Superficial injuries of hip and/or thigh*)
 - **S80** (*Superficial injuries of knee and/or lower leg*)
 - **S90** (*Superficial injuries of ankle, foot, and/or toes*)
- **Late effect codes, which are represented using the same range of injury diagnosis codes but with the 7th digit modifier code of D through S, are also EXCLUDED.**

Status Criteria:

At least one of the following **in addition to at least one of the qualifying diagnosis criteria:**

- **Death²** resulting from the traumatic injury (independent of hospital admission or hospital transfer status);
OR
- Patient transfer from one **acute care hospital³** to another acute care hospital; OR patients directly admitted to your hospital (exclude patients with isolated injuries and admitted for elected and/or planned surgical intervention);
OR
- Patients who were an in-patient admission and/or observed

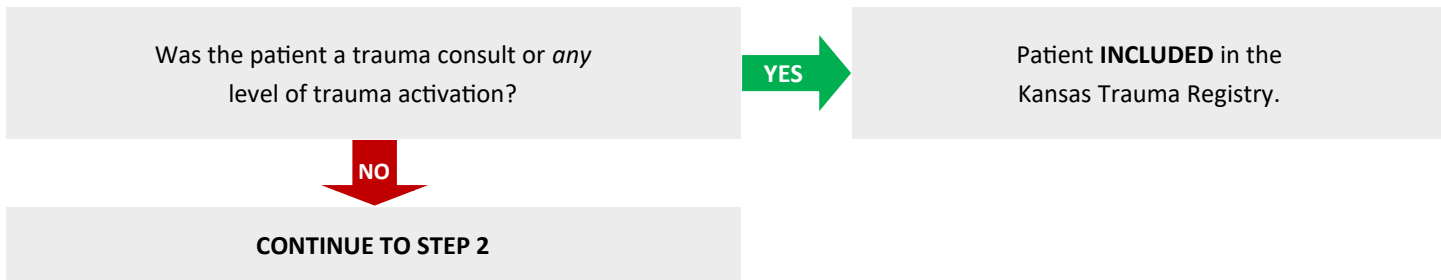

¹In-house traumatic injuries sustained after initial ED/Hospital arrival and before hospital discharge at the index hospital (the hospital reporting data), and all data associated with that injury event are excluded.

²Inclusion based on **death in the ED** is defined as patients who were not pronounced dead at the scene of injury, but pronounced either while en route to your facility or at your facility.

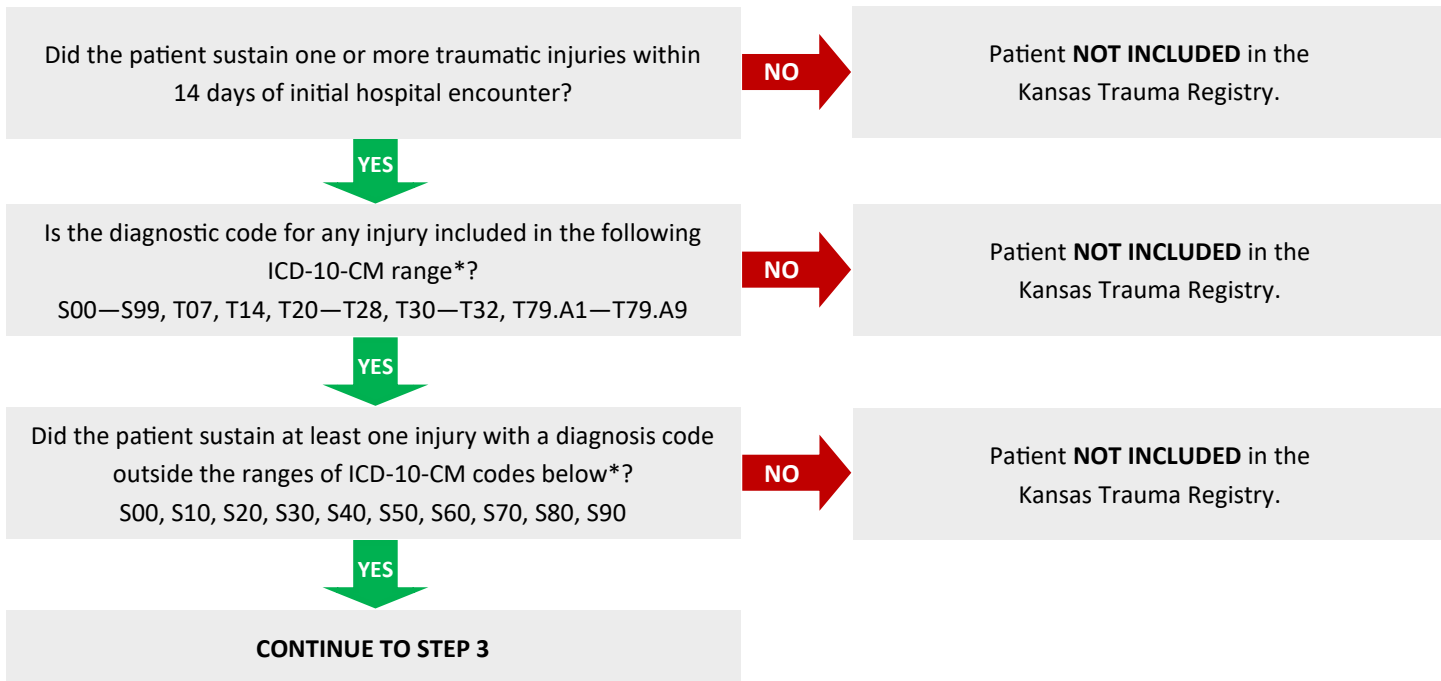

³An **acute care hospital** is defined as any hospital or facility that provides inpatient medical care and other related services for surgery, acute medical conditions, or injuries (usually for a short-term illness or condition).
