KSKidsMAP

Kansas Together for Pediatric Mental Health Care Access

Pediatric Mental Health Toolkit

Topic: Anxiety

Part 4: Brief Interventions
The FEAR Plan

• Feelings- build insight into emotions and the associated somatic symptoms
• Expectations- foster awareness of anxious thought processes
• Attitudes and actions that can help- coping thoughts and exposure
• Rewards- celebrate success
Feeling anxious?

• Provide education about the body’s stress response
• Empower child to change how their body feels
  • Deep breathing exercises
  • Progressive Muscle Relaxation
Expecting bad things to happen?

• Label the anxious thought process
• Worry brain vs. smart brain
• Confine the worry to a specific time and or place
Attitudes and Actions that can Help

• Coping thoughts - practice, practice, practice!
• Exposure Hierarchy
Results and Rewards

• Acknowledge the efforts
• Celebrate!
Parents

• Anxious kids often come with anxious parents
• Overprotection trap
• Build their confidence
• Parents need the same FEAR plan skills

Thank you for viewing the KSKidsMAP toolkit on Anxiety. KSKidsMAP intends for this toolkit to be used in conjunction with the KSKidsMAP program and not as a stand-alone resource. KSKidsMAP provides case-based consultation with experts in pediatric mental health, ongoing education and mentorship through the Virtual TeleECHO clinic, and physician and clinician wellness resources to those providing medical care to youth and adolescents with mental illness. Please connect with KSKidsMAP by emailing KSKidsMAP@kumc.edu or calling 1-800-332-6262.
