## INTRODUCTION

This directory is published for information purposes only. The State of Kansas does not necessarily endorse the agencies listed herein and does not directly or indirectly promote, exclude or discourage the use of any agency or service in this directory. This document is published by the Kansas Department of Health and Environment, Bureau of Family Health, in compliance with the amendments to K.S.A. 65-6708 et seq., known as the Woman's Right-to-Know Act.

Many public and private agencies exist to provide counseling and information on available services. You are strongly urged to seek their assistance to obtain guidance during your pregnancy. In addition, you are encouraged to seek information on abortion services, alternatives to abortion, including adoption and resources available to post-partum mothers. The law requires that your physician or the physician's agent provide the enclosed information. K.S.A. 65-6708 et seq.

## KANSAS LAW

It is unlawful for any individual to coerce a woman to undergo an abortion;

Any physician who performs an abortion upon a woman without her voluntary and informed consent may be liable to her for damages;

Kansas law permits adoptive parents to pay costs of prenatal care, childbirth and neonatal care.

### Medication Abortion using Mifepristone

A medication abortion using Mifepristone is a two-step process involving two medications:

- Mifepristone is the first medication in the two-step process. Mifepristone (RU-486) is designed to block your body's production of the growth hormone progesterone. Often referred to as the "pregnancy hormone," progesterone promotes growth in a human fetus throughout pregnancy. By blocking progesterone, the medication prevents an existing pregnancy from progressing.
- Misoprostol is the second medication in the two-step process. *Misoprostol* induces cramping, bleeding, and contractions to empty the uterus of a pregnancy. Misoprostol taken 24 to 48 hours after Mifepristone.

### Abortion Pill Reversal

Abortion Pill Reversal (APR) is a medical procedure wherein a woman receives a large influx of progesterone to attempt to reverse the effects of Mifepristone and allow a woman to continue a pregnancy. If APR occurs before taking the second step of a medication abortion with mifepristone, the pregnancy may have a chance of continuing. The *outcome of a reversal attempt cannot be guaranteed*.

It's best to start the reversal procedure within the first 24 hours of taking Mifepristone. Contact your doctor as soon as possible to obtain more information on the APR process and if it will work for you. After hours, contact the **24/7 Abortion Pill Reversal hotline** at 1-877-558-0333 to understand your options for beginning a reversal using APR.

## **MEDICAL ASSISTANCE BENEFITS FOR PRENATAL CARE, CHILDBIRTH AND NEONATAL CARE**

You may or may not qualify for financial help for prenatal (pregnancy), childbirth and neonatal (newborn) care, depending on your income. If you qualify, programs such as the state's medical assistance program, called Medicaid, will pay or help pay the cost of doctor, clinic, hospital and other related medical expenses to help you with prenatal care, childbirth delivery services and care for your newborn baby. Contact the health department and the Kansas Department for Children and Families office that serves your county.

## **THE FATHER'S RESPONSIBILITY**

The father of a child has a legal responsibility to provide for the support, educational, medical and other needs of that child. In Kansas that responsibility includes child support payments to the child's mother or legal guardian. A child has rights of inheritance from their father and may be eligible through him for benefits such as life insurance, Social Security, pension, veteran's or disability benefits. Further, the child benefits from knowing the father's medical history and any potential health problems that can be passed genetically.

Paternity can be established in Kansas by two methods:

The father and mother, at the time of birth, can sign forms provided by the hospital acknowledging the paternity and the father's name is added to the birth certificate.

A legal action can be brought in a court of law to determine paternity and establish a child support order.

Issues of paternity affect your legal rights and the rights of the child. More information concerning paternity establishment and child support may be obtained from any regional office of the Kansas Department for Children and Families, Division of Child Support Enforcement.

## **ORDERING INFORMATION**

Documents are available at no cost on the Kansas Woman's Right To Know website (<http://www.womansrighttoknow.org/>). Individuals and providers may download and print as needed. If you would like to order copies of the directory of available services, certification of consent, and the "If You Are Pregnant" handbook, call the toll-free number at 1-888-744-4825.

## **How to Find Services**

Look for the county where you live.

Look for the services you need.

Call one or more of the agencies listed and tell them what you need.

## **ALLEN**
