

Kansas Environmental Information Management System Panel

August 10, 2023

What is Kansas Environmental Information Management System?

- Kansas Environmental Information Management System (KEIMS)
- KEIMS is an online data management system
- System is shared across the Division of Environment where data for Bureau of Air, Bureau of Environmental Remediation, Bureau of Water, Bureau of Environmental Field Services and Bureau of Waste Management is housed
- Used by both internal users (state employees) and external users (regulated community, consultants)

KEIMS Link keims.kdhe.ks.gov
