

This form is included with your shipment of lead/copper bottles as a courtesy in helping you track your samples and sample locations. When distributing bottles to homeowners, please place one of the submission form stickers on the sample bottle and one under the Bar Code Number Column and then fill in the rest of the information in the table for each bottle distributed (see example below).

When you retrieve all of your samples and are ready to ship them, make a copy of this form to send with the bottles and keep the original with your records.

Bar Code Number	Collector	Date/Time of Collection	Address of the Residence.
 147366 CDS FOR LEAD COPPER	John Doe	01/01/2016 12:00 pm	123 Anystreet Anytown, KS
