

## Test Facility (116832) Used Oil Burners

<b>GENERAL FACILITY INFORMATION</b>	<b>Answer</b>	<b>Violation</b>
<p>1. If the burner is burning off-specification used oil and does not meet the exemptions listed in 279.60(a)(1) (generator burning in space heater) or 279.60(a)(2) (burned for purpose of processing used oil), is the Off-Specification used oil burned in an industrial furnace as defined in 40 CFR 260.10, a boiler as defined in 40 CFR 260.10 and 40 CFR 279.61(a)(2), and/or a hazardous waste incinerator subject to Subpart O of 40 CFR 264?</p> <p><b>40 CFR 279.61(a)</b></p>		
<p>2. If the used oil burner processes used oil do they comply with 279 Subpart F (Processors and Re-Refiners)?</p> <p><b>40 CFR 279.61(b)(1)</b></p>		
<p>3. If the used oil burner aggregates off-specification used oil with virgin oil or on-specification used oil is this done only for purposes of burning (not just to produce on-specification used oil)?</p> <p><b>40 CFR 279.61(b)(2)</b></p>		
<p>4. Has the Used Oil Burner notified and obtained an EPA identification number?</p> <p><b>40 CFR 279.62(a)</b></p>		
<p>5. Does the Used Oil Burner determine if the total halogen content of the Used Oil is below 1,000 ppm?</p> <p><b>40 CFR 279.63(b)</b></p>		
<p>5a. If yes, mark each of the following that apply to how the determination(s) are made:</p>		
<p>5b. If the halogen content is above 1,000 ppm total halogen, is it either presumed to be hazardous waste and managed accordingly or if appropriate, is it not presumed to be hazardous waste, because the owner/operator is using analytical data to demonstrate that the used oil does not contain hazardous waste and therefore rebutt the presumption that the used oil is hazardous waste?</p> <p><b>40 CFR 279.63(c)</b></p>		
<p>6. Are records of analyses conducted or information used to determine the halogen content maintained by the burner for at least 3 years?</p> <p><b>40 CFR 279.63(d)</b></p>		
<p>7. Does the facility store used oil in containers or tanks:</p> <p><b>40 CFR 279.64(b)(1)</b></p>		
<p>7a. Are containers or tanks in good condition?</p> <p><b>40 CFR 279.64(b)(1)</b></p>		
<p>7b. Are containers or tanks free from leaks?</p> <p><b>40 CFR 279.64(b)(2)</b></p>
