

Mud Trap Waste: Application for Beneficial Use

Beneficial Use Authorized by K.S.A. 65-3409(a)(1)(A)

NOTE: This application applies to mud trap waste generated by truck wash, industrial, or repair facilities. Mud trap waste generated by facilities that wash only passenger or fleet vehicles is not subject to Bureau of Waste Management regulations for disposal or reuse. See Kansas Department of Health and Environment (KDHE) Technical Guidance Document SW-1994-G3 for more information on mud trap waste management.

Generating Facility/Applicant Information

Facility name _____
Hazardous waste generator EPA ID number (if applicable) _____
Location address _____
Contact name (printed) _____ Position/Title _____
Mailing address _____
Phone _____ E-mail _____

Waste Information

What type of equipment or vehicles are washed? _____
What cleaning chemicals are used in wash areas? _____
Estimated quantity of mud trap waste generated per year (include units) _____
