

Kansas Certified Radon Measurement/Mitigation Technicians

The inclusion of technicians in this list does not imply endorsement by the State of Kansas. The State makes no endorsement, express or implied, of any certified technicians. Companies are listed under the county where their business address is located, however, some do work in multiple counties. If you are unable to find a provider in your county, please check listings for the surrounding counties. If you would like to know if a company does business in a particular county, you will need to contact that company.
