

Kansas Tobacco Cessation Help (KaTCH)

Tobacco use is the leading preventable cause of disease, disability, and death in Kansas. As a health care provider, you can help.

- **FREE** online course is accredited for 2 hours of medical, nursing and pharmacy (CME, CNE, CPE) for health care professionals.
- Structured into 7 learning modules each ranging from 15-30 minutes in length to complete the series over time.
- After completing each module, complete the evaluation and collect the certificate.
- Listen to a sample coaching interaction.
- Information on how to access additional cessation trainings and resources to help your patients quit.

To view the training, please visit:
QuitLogixEducation.org/kansas

Modules for this training include:

- Medicaid and Quitline Benefits
- Ask. Advise. Connect.
- Special Quitline Programs
- Behavioral Health Population
- Chronic Diseases
- Vaping 101
- Preventing and Treating Vaping
